JavaScript Course

BeeOnCode Training Center

02/2019 – 05/2019 | Yerevan, Armenia

HTML, CSS, Bootstrap, JavaScript

Python Course

Profit Training Center

02/2020 – 09/2020 | Yerevan, Armenia

Python, Django Rest Framework, Flask, React JS, MobX

🌐 Languages

Armenian — Native or Bilingual Proficiency

English — Professional Working Proficiency

Russian — Professional Working Proficiency

📁 Professional Experience

Full Stack Developer

Profit Development Company

10/2020 – Present | Yerevan, Armenia

- Developed full-stack applications with React.js, Redux/MobX, Python Django/FastAPI, PostgreSQL, and SQLAlchemy.
- Implemented role-based access control and JWT authentication with access and refresh tokens.
- Built REST APIs with Django Ninja and integrated frontend applications with backend services and databases.
- Processed CSV data with Pandas and generated automated PDF reports using FPDF.
- Implemented unit and integration tests for business logic, APIs, and application workflows.
- Used Claude Code for AI-assisted development, including research, debugging, and refactoring, while maintaining full understanding of the code.

Front End Developer

Freelance Project

05/2026 – 08/2026

- Developed and maintained a large-scale SPA for property management using React.js, TypeScript, Vite, and MUI.
- Built reusable UI components, data tables, forms, and feature-based architecture across multiple business modules.
- Integrated REST APIs using Redux Toolkit and RTK Query with caching, invalidation, authentication, and automatic token refresh.
- Implemented role-based access control, protected routes, bilingual English/French UI, and responsive layouts.
- Built reusable configuration-driven forms with React Hook Form and Zod, including validation, error handling, and data workflows.
- Contributed to deployment and delivery using Git/GitHub and Azure Static Web Apps.
